### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art does not disclose a pinch valve including a flexible tube and two rotating elements which operate in tandem and each go from presenting a fully open half-profile to a fully closed half-profile, all the time engaging the outer perimeter of the tube to force it to remain in the desired shape, as the elements are rotated simultaneously. Similar valves which utilize a single rotating element to present a full-open and full-closed profile to a flexible tube exist in the cited prior art such as the cited Green reference, but the tandem system disclosed and claimed in the instant application is not anticipated or rendered obvious by such systems.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter T deVore whose telephone number is (571) 272-4884. The examiner can normally be reached on Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Justine Yu can be reached on (571) 272-4835. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
